

Microsoft Teams Voice-as-a-Service

Cloud Hosted Teams Direct Routing

Replace Your Phone System with Teams

Microsoft Teams is an industry leading collaboration solution which provides Enterprise features such as IM, Presence, Audio, Video and Web Conferencing. Calling plans from Hybrit enable you to make phone calls from your Teams client, cutting costs and complexity.

Microsoft Teams helps your team stay organised and have conversations all in one place. Using the Hybrit cloud-hosted Teams Voice-as-a-Service platform in conjunction with Microsoft Teams will allow your organisation to use the calling features of Teams in a more flexible and cost-effective way.

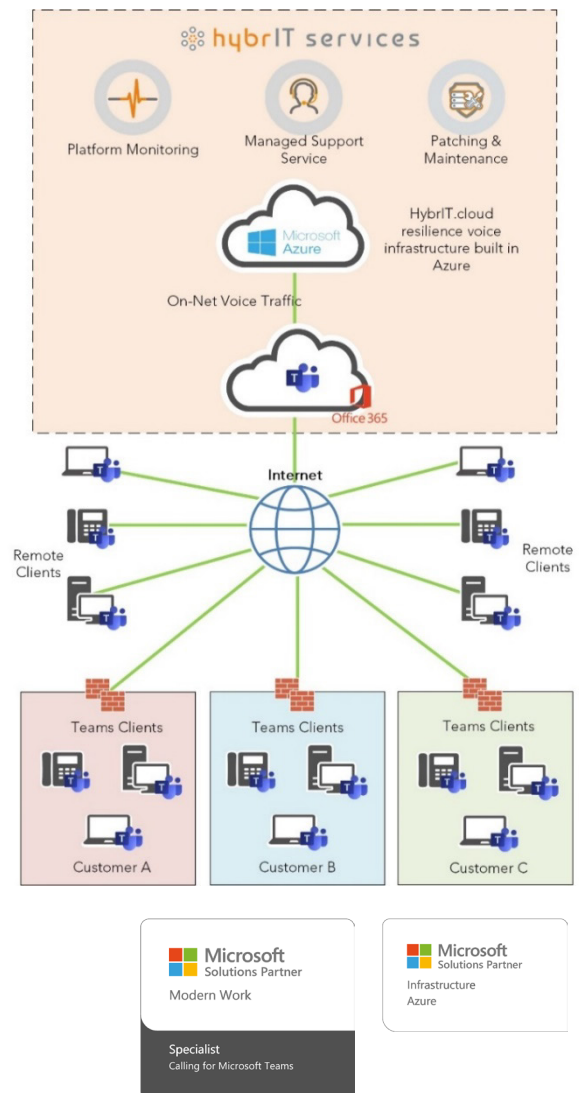

Features

- ❁ Hosted in Microsoft Azure across multiple data centres and regions for high availability.
- ❁ Hybrit SIP services are provided by some of the largest and most trusted carrier providers in the UK and 50 other countries.
- ❁ Migrate in just a few days, existing numbers are easily ported into the service using a regulated process.
- ❁ Choose from a range of new number options if required.
- ❁ Voice platform fully managed, supported and monitored by Hybrit managed services.
- ❁ Flexible capacity based on short term requirements.
- ❁ Option to add Teams enabled phones, headsets and conference rooms to enhance the Teams experience.

Benefits

- ❁ Reduction in resources and licensing costs.
- ❁ Reduced call costs compared to ISDN.
- ❁ Reduced complexity – one solution for all your Unified Communications.
